

Antique Delft Tiles 150x150x7mm

If your wanting to achieve a quaint look in your home this season, these charming ceramic Antique Delft Tiles will make the perfect addition to your walls. These tiles come in a set of 6 with beautifully muted blue illustrations of country farmhouses along with floral corner motifs. With a glossy crackle finish they look almost antique in appearance.

Before grouting, we do recommend with any crackle glazed tiles that you seal them with LTP Crackle Glaze to prevent the grout from discolouring the tile, and to also prevent water penetration to the surface of the tiles.
